

SPMS 2012

The 3rd International Conference on Stochastic and Physical Monitoring Systems

25. 6. – 30. 6. 2012

Sázavka resort, Zlenice

Czech Republic

gams.fjfi.cvut.cz/SPMS

Main sections and topics:

1. Stochastic monitoring systems
Robust statistics, Geographic characteristics estimation,
System Identification, Divergences
2. Traffic and agent monitoring systems
Traffic monitoring, Agent systems modelling
3. Physical monitoring systems
Material diagnostics, Acoustic emission, Software testing

Invited speakers:

- Domingo Morales (UMH de Elche, Spain)
Jiří Grim (UTIA CAS, Czech Republic)
Serge Dos Santos (ENIVL Blois, France)
Zdeněk Převorovský (UT CAS, Czech Republic)

31. 5. 2012 Deadline for registration and submitting abstracts
Organizing committee: Václav Kůs, Jiří Franc
Program committee: Václav Kůs, Milan Krbálek, Tomáš Hobza

The SPMS 2012 conference will be held in the romantic and suggestive countryside at the river Sázava close to Prague.

For CVUT students, the conference is fully covered by the SVK 2012 grant, including proceedings.
